## SUMMARY

Full Stack PHP/Laravel Developer with 8+ years of experience designing, developing, and maintaining scalable web applications. Skilled in PHP, Laravel, MySQL, RESTful APIs, WebSockets, and OOP/SOLID principles, with expertise in modern front-end technologies including HTML5, CSS3, Tailwind, Bootstrap, JavaScript, React.js, jQuery, and AJAX.

Currently employed full-time in Riyadh at PropsBox and actively seeking a Full Stack Developer position. Skilled in Git, Agile/Scrum workflows, Linux server management, and CMS platforms including WordPress, Shopify, and Webflow. Adept at problem-solving with a strong record of delivering optimized, responsive, and high-performance web applications.

## EXPERIENCE

**Web Developer** Aug 2025 - Present  
Propsbox (Remote) Riyadh, Saudi Arabia

- Implementing website refinements using Webflow, improving UI/UX and mobile responsiveness.
- Optimized website performance, reducing page load time by 25 percent.
- Collaborating with Riyadh-based team remotely to ensure timely project delivery.

**Full Stack Developer** Oct 2024 - Aug 2025  
Tech Verticks Karachi, Pakistan

- Developed and maintained full-stack applications, implementing secure MySQL databases and reusable backend modules.
- Applied design patterns and object-oriented principles to enhance maintainability and scalability.
- Led integration projects using REST APIs and optimized server-side rendering.
- Worked on cross-browser, responsive front-end implementations with Bootstrap and Tailwind.

**Full Stack Developer** Jan 2018 - Oct 2024  
Inspurate Business Services Karachi, Pakistan

- Developed scalable PHP/Laravel applications applying OOP and SOLID principles.
- Built and integrated RESTful APIs and third-party services for seamless system communication.
- Optimized MySQL queries and caching strategies, reducing server load times by 35 percent.
- Designed responsive front-end interfaces using Tailwind, Bootstrap, JavaScript, and AJAX.
- Collaborated in Agile/Scrum environments, using Git, JIRA, and Trello.

**Frontend Developer** Feb 2016 - Dec 2017  
Echelon Tech Lab Karachi, Pakistan

- Built and maintained PHP-based websites with modern front-end interfaces.
- Integrated customer feedback into iterative development, improving UI/UX.
- Debugged, tested, and optimized backend logic and database queries.

## PROJECTS

---

### **PropsBox (Event Photobooth and Entertainment Solutions) - [propsbox.com](https://propsbox.com)**

Delivering immersive event experiences and branded entertainment for corporate events, activations, and private functions.

- Built on Webflow with custom CMS collections and interactive components for property showcasing.
- Integrated dynamic filters, responsive animations, and SEO-friendly content structure.
- Optimized design performance to ensure seamless user experience across all devices.

### **JS Bank (Corporate Banking Website) - [jsbl.com](https://jsbl.com)**

Redefining corporate banking engagement through a dynamic and secure web experience.

- Developed using WordPress, Custom Post Types (CPTs), and Advanced Custom Fields (ACF) for flexible content management.
- Integrated AI-based WP Search and performance enhancements for accessibility and speed.
- Focused on scalability, cross-browser support, and compliance with enterprise-grade security standards.

### **Zindigi (Digital Banking Platform) - [zindigi.pk](https://zindigi.pk)**

A digital-first banking product by JS Bank focused on delivering modern financial services to retail users and millennials.

- Built as a JS Bank product with a custom WordPress + Elementor front-end for marketing and content pages, using CPTs and ACF for flexible content management.
- Emphasized mobile-first design, accessibility, and fast performance to align with the product's app-driven user acquisition strategy.
- Implemented analytics-ready pages and tracking hooks to measure campaign effectiveness and user engagement.

### **JagahOnline (Online Unified Marketplace) - [jagahonline.com](https://jagahonline.com)**

A one-stop property marketplace transforming Pakistan's real estate landscape.

- Developed from the ground up using React, Node.js, Express, and MongoDB.
- Built agent dashboards, listing management systems, and real-time search features.
- Focused on high scalability, API efficiency, and seamless cross-platform performance.

### **Services of Canada (Immigration and Consultancy Platform) - [servicesofcanada.help](https://servicesofcanada.help)**

Connecting clients to immigration and consultancy experts through a unified portal.

- Developed using Laravel, creating custom modules for services, inquiries, and user management.
- Integrated secure form validation, multi-language support, and SEO enhancements.
- Focused on UI/UX consistency and optimized backend performance.

### **The Key Clinic (Healthcare Management System) - [thekeyclinic.co.uk](https://thekeyclinic.co.uk)**

Empowering a UK-based wellness center with secure and efficient digital operations.

- Built a custom Laravel platform for patient management, bookings, and therapy modules.
- Integrated authentication, admin dashboards, and notification systems.
- Optimized data flow and implemented backend performance improvements.
